

St Patrick's Geography

Expert Ending

Please join us on Friday 20th December at 1:30 to experience your child's geographical knowledge!

We would like to invite you to our whole school expert ending to showcase our children's amazing cross curricular geography work this half term.

Similar to the historic catwalk we had last academic year, we will begin the day at 1:30 with an assembly. This will be a taster of each of the topics you will see.

You will then be invited to go to your child's classroom to see their learning and then visit the rest of the school. You will be given a passport to check off each topic you visit in your tour around the world.

There will also be a quiz for you to answer with questions based on each room. Remember, pay close attention to what the children are saying as the answer will lie within their knowledge.

Once you have had your passport signed in every country around school you must go back to your child's class, with your completed passport to have them signed out of school. If somebody else is collecting your child for you, you must let school know in advance. However, school will remain open and finish at normal for time for parents who are unable to attend.

We hope the day will be an even bigger success than our last whole school expert ending!

Timetable

1:30 - Assembly

1:45 - 2:45 - Embark on your geographical tour

3:20 - End of the day
